

A New Course in Mystical Hebrew with Stephen Pope BD MA Six Weeks Live on Zoom Beginning on Tuesday January 14 at 19.30 CET

A new online course that opens up the profound mystical depths of the sacred Hebrew Letters.

The sacred Hebrew texts speak to us directly from the spiritual dimension, from which the Creation - Bereshith in Hebrew - continually emerges, here and now.

As we meditate with the Hebrew Letters, their profound beauty emerges within, to bring us into direct communion with the spiritual dimension - the Heavens, Ha-Shemaim in Hebrew.

In this course, we make our own, personal bond with the Letters, and allow their healing energies to resonate inside.

The Letters come alive within us, through meditation, contemplation and the conscious breath.

We will explore the deeper resonances of the sacred Hebrew names for the Divine, and the

Sephirot of the Tree of Life, and open up some key passages of Hebrew texts, especially, the Book of Genesis, or Bereshith.

As we come to know that everything described in these sacred texts is alive within us, we realise our own true nature as multi-dimensional beings, in communion with the universal Consciousness of Creation.

Course Cost: £110/\$140/130 euros. This course is live and interactive. Recordings and supplementary materials are made available after each class.
